This volume consists of a selection of papers initially presented at the conference “Ancient Egyptian Biographies. Forms, Contexts, Functions” held at the University of Basel on 14–17 May 2014, then revised and elaborated by the authors. We remain indebted to Susanne Bickel for hosting the conference at the Departement Altertumswissenschaften of the University of Basel. The conference was generously funded by the Swiss National Science Foundation, the Freie Akademische Gesellschaft, and the Basel Egyptological Chair.

Juliana Paksi, Katharina Vogt, and Leire Olabarria helped with practical matters in organizing the conference. At a later stage, Vincent Morel, Julia Hamilton, Ellen Jones, and Jordan Miller have read through the individual manuscripts and helped with the editorial work on these.

Our thanks extend further to James Allen and John Steele for accepting the manuscript for publication in the series *Wilbour Studies in Egyptology and Assyriology*, the Wilbour fund for supporting the publication, and Billie Jean Collins and the Lockwood editorial team for making the manuscript ready for publication.
